

# Limited Time Promotional Offer: Secured AWS Landing Zone Buildout at NO COST to You\*

## InterVision Cloud Migration Lifecycle Assurance

InterVision's [Cloud Migration Lifecycle Assurance \(CMLA\)](#) program provides midsize, enterprise and public sector organizations a comprehensive approach to cloud migration, operation and optimization. Available through a self-service, co-managed or fully managed support model, CMLA addresses cloud skills gaps at the right level throughout your entire cloud adoption lifecycle. Our matured design and delivery approach ensures migrations move efficiently with ongoing optimization and operational support matched to your organization's needs.

Accelerate Migration  
with a proven and tested  
process

Harden Operations  
with support from certified  
AWS experts

Optimize Spend  
with matured FinOps and  
automation

## What's Included in This Offer

For this limited time promotion, InterVision is offering a secured AWS landing zone or AWS Managed Services landing zone ([AMS by InterVision](#)) built to your organization's specific requirements at no cost to you.\* Our certified AWS engineers will build you a new, secure, multi-account AWS environment based on best practices and enable cross-account networking ready to connect to your existing networks. This foundation will accelerate migration and set you on the path to successful cloud adoption.

## Example Process

1. Control Tower build out
2. Account Setup
3. Ingress, East/West and Egress Firewall
4. Base Network Integration
5. Transit Gateway
6. Validation and Test

## Why InterVision CMLA?

As an AWS Premier Consulting Partner with the AWS Migration Competency and twenty-five years of experience supporting clients in their datacenters, we eliminate the knowledge gap between legacy infrastructure and cloud systems that so often stalls cloud initiatives. Simultaneously, we mitigate the risk of poor cyber hygiene and cost sprawl.

### A Prescriptive Approach

Our refined methodology assures you are informed and involved at every stage, and that migrations will be built to operate

### Technology Partnerships

Our deep list of strategic partners and over 80 supported vendor technologies assures an integrated approach to cloud adoption

### Tailored Support

With CMLA, your migration will be designed to operate in the support model matched your strategic business objectives
